LETTER OF TRANSMITTAL

DEPARTMENT OF THE ARMY,
ARMY MEDICAL LIBRARY,
30 June, 1948.

Major General RAYMOND W. BLISS,
The Surgeon General, United States Army.

GENERAL:

I have the honor to report the completion of the Tenth Volume, Fourth Series, of the Index-Catalogue of the Surgeon General's Office, the fifty-seventh volume of the entire catalog. The volume contains references to medical subjects under letters from M to MEZ, and the books of authors whose names fall within the same range.

The volume also contains a check-list of abbreviated titles of journals that have been currently received and indexed in the library since 1919 and used in the references in the Fourth Series of the Index-Catalogue. An analytical descriptive catalog of all periodical publications possessed by the library will appear in a later volume of the Fourth Series. Other supplements are not included at present.

The tenth volume includes 6,943 subjects and their subdivisions. It consists of 1,136 pages. The following table shows the number of titles in the Index-Catalogue so far published.

	Author titles	Subject titles	
		Books and pamphlets	Journal articles
First series (v.1-16, 1880-95, ed. by Dr Robert Fletcher).....	176,364	168,537	511,112

Third series (v.1-2, 1918-20, ed. by Dr Fielding H. Garrison; v.3-10, p. 784, 1922-32, ed. by Dr Albert Allemann; v.10, from p. 785 on ed. by Dr Claudius F. Mayer).....	88,876	57,034	603,600
Fourth series (v.1, 1936 on, ed. by Dr Claudius F. Mayer):			
Volume One (A) 1936.....	2,779	4,454	71,168
Volume Two (B) 1937.....	8,892	3,631	79,874
Volume Three (C) 1938.....	4,281	4,302	77,479
Volume Four (D) 1939.....	3,798	4,375	55,950
Volume Five (E, F) 1940.....	5,499	5,630	88,048
Volume Six (G) 1941.....	5,836	3,125	58,871
Volume Seven (H) 1942.....	6,443	6,542	60,502
Volume Eight (I, J) 1943.....	2,928	3,616	51,319
Volume Nine (K, L) 1945.....	10,462	3,967	91,337
Volume Ten (M ₁) 1948.....	7,214	5,890	62,876
Total to date.....	492,554	407,508	2,457,693

The style of cataloging and indexing remains the same as in previous volumes, and both author and subject entries were prepared after direct examination of the original publications by the Editor of the Index-Catalogue.

Free distribution of the catalog in foreign countries started anew, but it is still meeting with difficulties in certain areas of Europe. Every effort has been made to ascertain the war damage to sets of the Index-Catalogue in foreign institutions and to replace defective sets if possible.

Very respectfully,

JOSEPH H. McNINCH,
Colonel, Medical Corps, United States Army
The Director, Army Medical Library.
